

Happy May Day!

This month's Academic questions are listed below. Please answer them and return back to me by the end of this month. This is the last month of the contest and all answers are expected to be turned in by the 31st, no submissions will be excepted after the 31st.

If you have any questions or concerns please don't hesitate to contact me at the below contact information.

Good Luck!

1) Ammie passed around a basket of strawberries to the girls at her party. Before the party she ate 5 strawberries and gave a friend 3. Eight girls arrived at the party. The first girl took a strawberry, the second took 3 strawberries, the third girl took 5 strawberries and so on. After the last girl took her strawberries, the basket was empty. How many strawberries were in the basket at the beginning?

2) Tissue A is usually present in the outermost layer of the plant body. Identify A and give one function it performs.

3) During the Civil War who was the commander of the army of the Confederate States?

Bonus:

What is a dromedary, and what is it used for?
